BTE ATTACHMENT

EXTENDABLE POLE SAW

Trim and cut tree canopy with speed, ease, and efficiency

The **BTE Pole Saw** is a durable, high-reach excavator attachment designed to make tree canopy trimming and cutting simpler and more efficient. With low hydraulic demand and manageable weight, it's ideal for a wide range of applications and carrier machines. And the rotating 24" saw blade delivers precise, controlled cuts.

AT-A-GLANCE

Height/Length	42 in
Width	25 in
Weight	2,700 lb
Saw Hydraulic Flow	7.5 GPM
Saw Hydraulic Pressure	2,850 PSI
Boom Extend / Retract	7.5 GPM @ 2,000 PSI
Saw Rotate	6.5 GPM @ 1,000 PSI
Max Return Pressure	100 PSI

FEATURES

- Direct-drive hydraulic saw delivers smooth, reliable operation
- Rotating saw head enables optimal positioning and cutting efficiency
- Carbide-tipped blade offers longer wear life vs. standard steel
- BTE bolt-on coupler top ensures quick adaptation to carrier machine
