BTE ATTACHMENT

RAIL BREAKER

Power clean, controlled cutting for faster, safer reclamation and cleanup

The **BTE Rail Breake**r fractures long sections of rail into manageable pieces using a specialized jaw that cuts clean— without the sparks or fire hazards that come with torch cutting or grinding. Engineered for demanding rail maintenance operations, the Rail Breaker reduces cycle times while minimizing shock loads on host machines.

AT-A-GLANCE

Height	3.6 ft
Weight	9,600 lbs
Length	9 ft
Width	2.8 ft
Hydraulic Flow Required	53-92 GPM
Hydraulic Pressure Required	4,600 PSI

FEATURES

- Specialized jaw for clean, controlled fractures
- Engineered to reduce shock loads to host machine
- Fast cycle times support more efficient reclamation
- Capable of breaking head-hardened rail up to 136 lb
- Quick connection to bucket position on specified machines
