BTE ATTACHMENT

THUMB BUCKET

Excavate and move large, heavy materials with strength and precision

The **BTE Thumb Bucket** is a heavy-duty thumb/bucket combination designed for superior gripping and handling of debris, rail components, and other large materials. Featuring two independent claws, it delivers a high degree of clamping force, making it ideal for natural disaster cleanup, major track repairs, and other demanding applications.

AT-A-GLANCE

Height/Length	60 in x 72 in
Width	60 in
