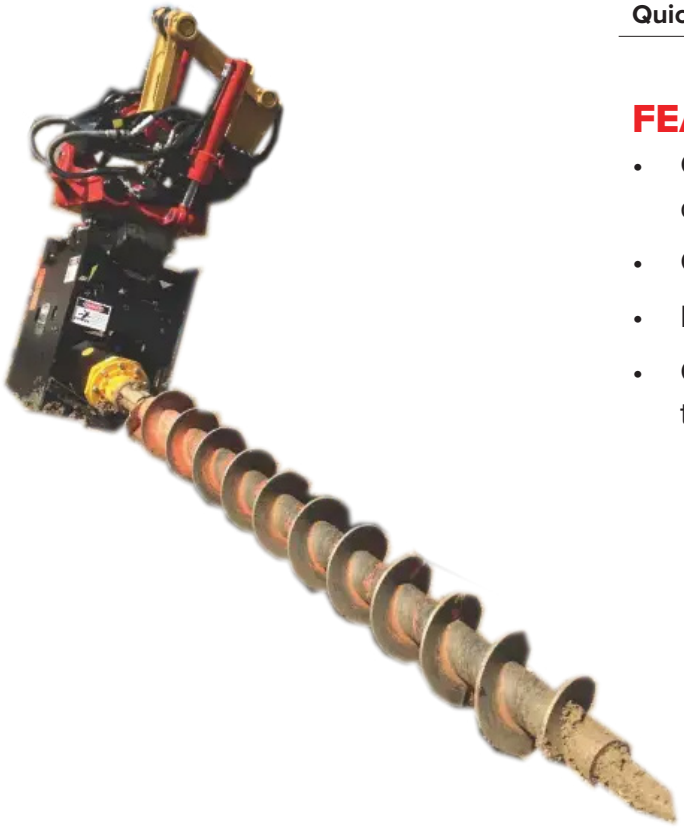
CULVERT CLEANER

Efficient and effective clearing systems for uninterrupted flow

The **BTE Culvert Cleaner** tackles clogged ditches, plugged culverts, and mud spots that delay rail traffic. Using continuous auguring, it works with BTE Hi-Rail Excavators to clear multiple culverts in a day without water or vacuum assistance, all while operating off-track to avoid disrupting train traffic.



AT-A-GLANCE

Height/Length	37” x 64”
Width	33”
Weight	1,500 lbs
Hydraulic Flow Required	35 GPM
Hydraulic Pressure Required	3,000-3,500 PSI
Pin Grabber	Optional
Quick Coupler Hydraulics	Optional

FEATURES

- Clear culvert pipes from 18” to 72” in diameter and up to 120’ long
- Capable of clearing multiple culverts in a day
- No water or vacuum assistance required
- Operable off-track, minimizing disruptions to train traffic
